During investigations, AC found out that he was picked up during a night when there was violence creating insecurity in Douala and he had no identification papers on him. The distribution of brochures and pasting of posters continued to be the major activity carried out this month in a bid to recruit more victims of corruption. 70 posters were pasted and 150 brochures distributed in the Mokolo market area corruption hotspot.

Case follow-up this month as in the previous month of June continued on the corruption case involving many counts with about three hundred victims deposited at the court of First Instance in the month of August 2017. The case has not still been called up for open court hearing since considering the many instances that the lawyer has had to deposit the case file anew because it keeps getting missing, AC petitioned the Minister of State, Minister of Justice and Keeper of the Seals through a letter calling for his intervention because according to the lawyer, this is the third time the case file is missing from the various jurisdictions which the case had been forwarded to for treatment.

Investigations were carried out on a new complaint file on oppression opened this month. The caller asked AC to intervene in the case of his elder brother who was arrested for lack of identification papers and was transferred after two days from the police cell directly to the Douala New Bell prison to be detained under administrative orders. In order to understand why an administrative detention order was signed against a civilian who was unable to present any identification papers at the time of his arrest, AC opened an investigation and found out that he was picked up during a night when there was violence creating disorder and insecurity in Douala and he had no identification papers on him. Even two days after when he was transferred to the prison, he could not present his ID card. The investigating officer informed AC that he was among a group of men who were violent and it erupted into rioting during the world cup finals and this caused a situation of disorder and insecurity, reason for which they all had an administrative detention order signed against them.

Investigations are ongoing on a new complaint file on fraud that was opened this month. The complainant, a worker with EUROPE AFRIQUE INTERIM SARL a subsidiary consultant firm of ENEO complained that he had an accident while at work and his salary was suspended by the firm, demanding that he refer to the National Social Insurance Fund (NSIF) that manages contributors who have accident at work. He made the demand at NSIF and was informed that no contributions were made for him to that regard. It's been six months that he cannot walk due to the accident and he does not have access to treatment due to lack of funds. NSIF has informed him that he can only get help from them if his employer deposits his contributions. He has been unable to collect even family allowances which he intended collecting to use for treatments because his employer. The EUROPE AFRIQUE SARL frequently skipped contributions for him though they claimed to do monthly.

Investigations were also carried out on a new complaint file brought to the notice of AC this month regarding a land dispute case between two neighboring villages in the Donga Mantung and Ndu Sub Division of the North West region. An indigene of the Ngerong village, to whom the land belongs, called and claimed that the new D.O of Ndu had received money from their neighbors, the Ntuborg people in order to let them farm on their land. According to him, the former DO had sat the notables of both communities in 2004 when the violence was beginning to erupt and resolved the dispute in favor of the Ngerong people. But because the Ntuborg people have power and money, they have given money to the present administrators who are now saying that both parties must farm the same land. Considering that there were already casualties on the field due to the violence between both communities, AC decided to involve the SDO, the

superior of the DO for quick action to be taken on the field. Investigations are still pursuing in the matter.
