

ANTI-CORRUPTION ORGANISATION**July 2019 Report****Highlights**

- One **(01)** new complaint file opened this month
- AC hotline received **21** calls this month
- Health Corruption hotline received **04** calls this month

General

The AC hotline phone received 21 calls this month of July, registering 7 complaints. 04 corruption and corruption assimilated offences and 03 non-corruption related complaints

(01) new case file was opened this month

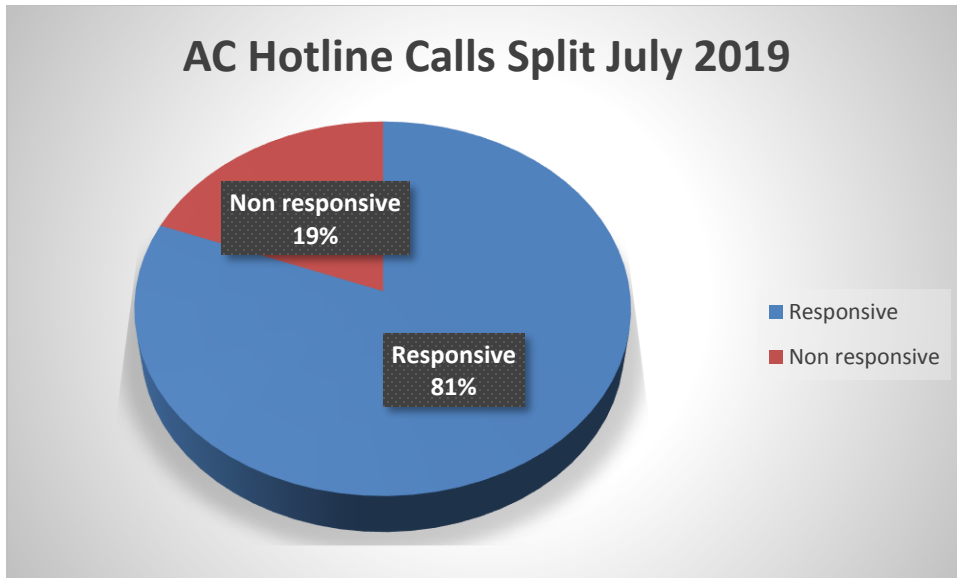

A new case file on land corruption and fraud was opened this month. The complainant reported a case of double land sale that has caused her to lose the land and the investments she has carried out on the land summing up to about 14 million F CFA. She has a valid land title of the plot of land and so does five other claimants, with documents pertaining to the same parcel of land. Investigations are ongoing.

Case follow-up continued this month in the corruption case involving many counts with about three hundred victims deposited at the Yaoundé Court of First Instance in the month of August 2017. The case file was examined by the Procureur General of the Court of Appeal and forwarded to the president of the same court on August, 15, 2019 for the continuation of procedure which is to design a competent trial judge and court to handle the matter.

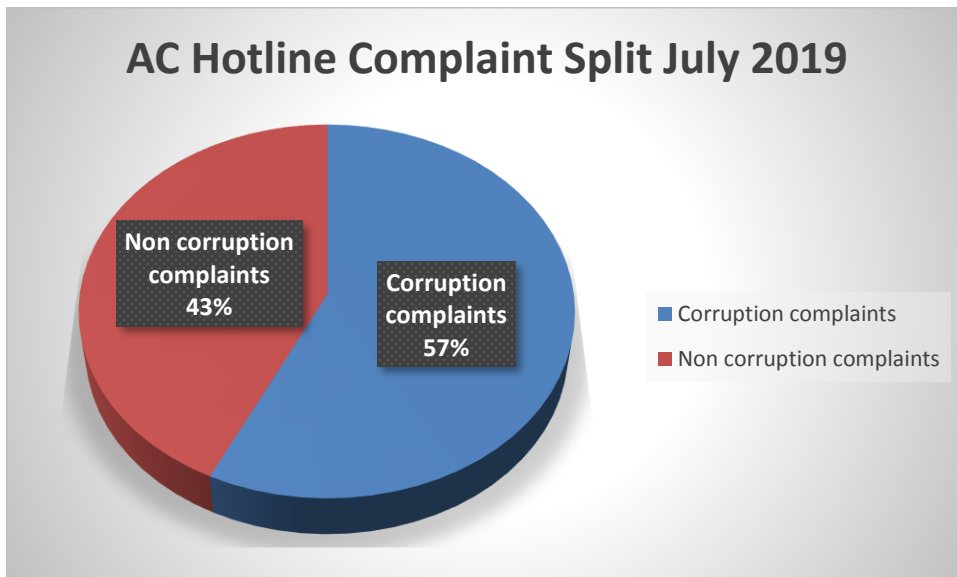

AC Hotline Phone

The AC hotline phone received 21 calls this month with 4 corruption complaints and corruption assimilated offences. Three (03) non-corruption related complaints were also registered making a total of 7 complaints that came in through the AC hotline phone this month.

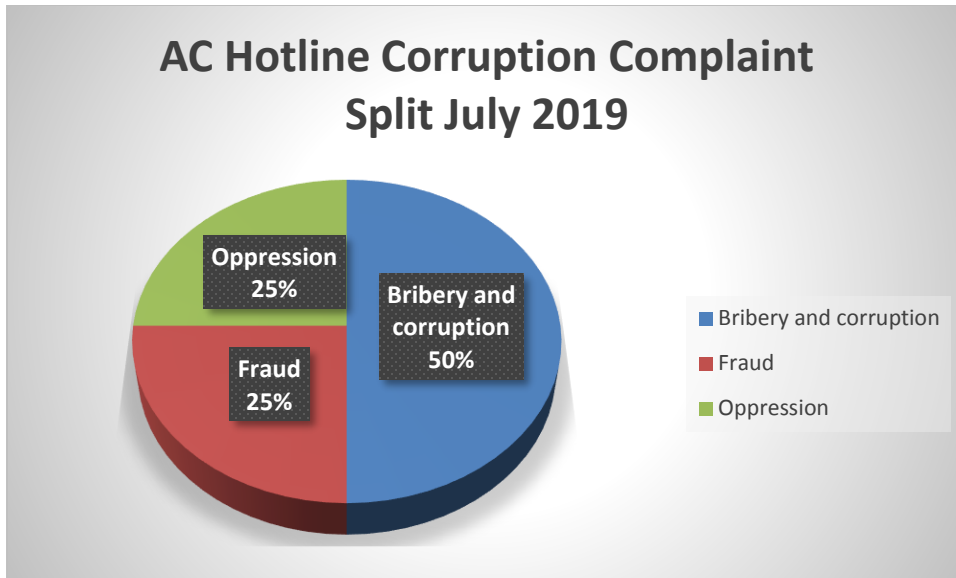

The calls have been analyzed as seen on charts below;

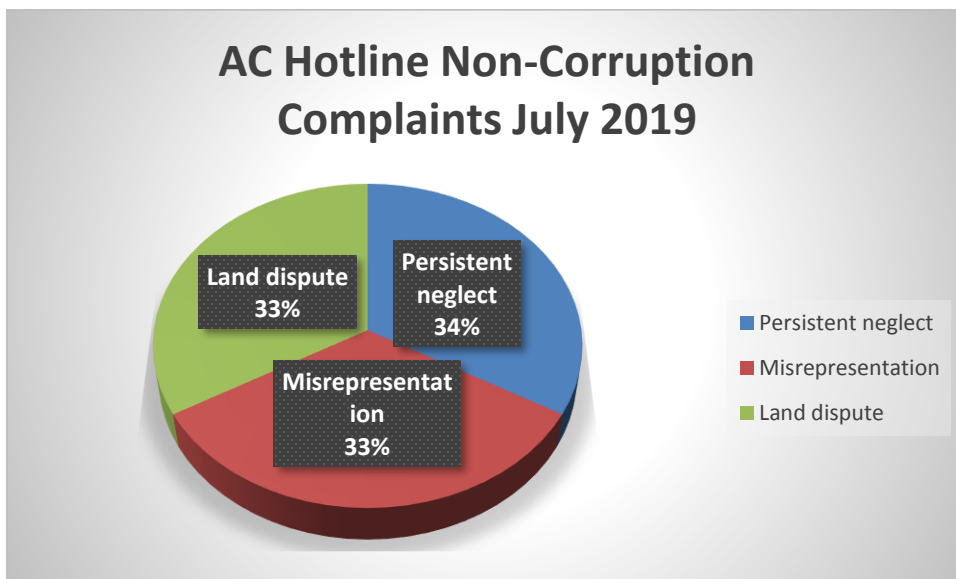

AC responsive calls registered 81% of callers this month of July while non responsive calls registered 19% of callers whose numbers were unavailable

57% of complaints this month of July 2019 was represented by corruption and corruption assimilated offences while 43% represented complaints not related to corruption

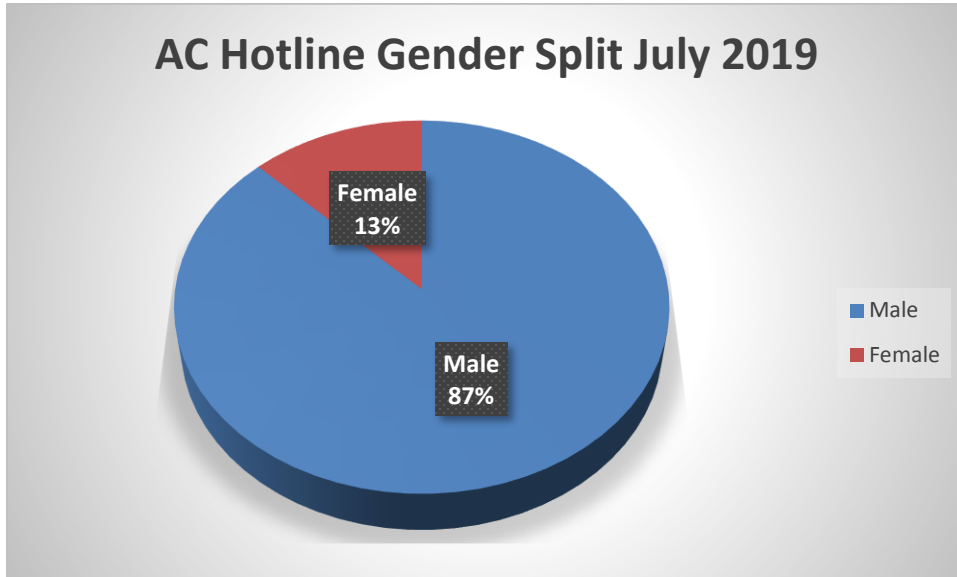

As is the usual trend with corruption complaints, complaints of bribery and corruption were the highest reported this month representing 50% of total corruption complaints, while complaints of fraud and abuse of power represented 25% each of the total corruption complaints.

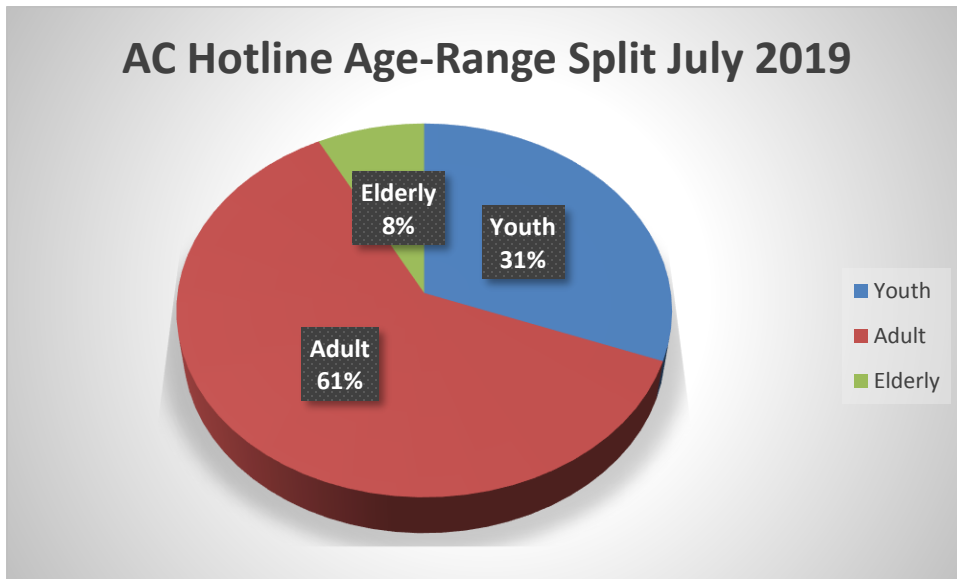

Complaints of persistent neglect represented 34% of non-corruption complaints, while complaints of land disputes and misrepresentation represented 33% each of the non-corruption complaints reported this month.

Gender

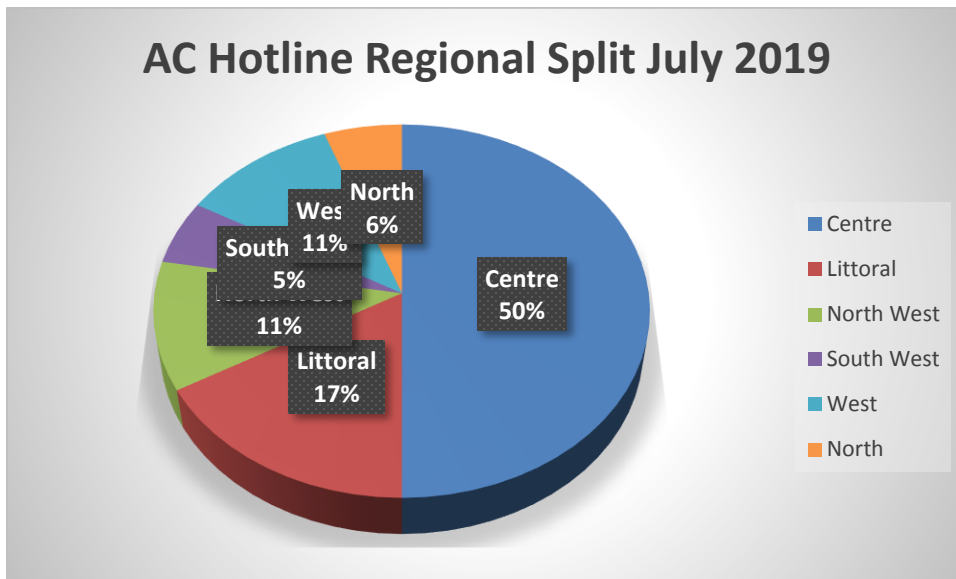

The male gender participated with the highest number of calls this month representing 87% of calls while the female gender participated with just 13% of callers

Age Range of Callers

The adult age-group participated with the highest number of calls this month of July 2019 representing 61% of total calls, followed by the youth age group with 31% and lastly, the elderly age group with just 8% of callers

Regional representation

The Centre region participated with the highest number of calls this month representing 50% of callers, followed by the Littoral region with 17%, then the North West and West regions with 11% each and the North and South West regions with 5% each

Investigations

Investigations were carried out this month in a new complaint file of land corruption and fraud opened this month. The complainant, solicited AC's intervention because she had just received an order, signed by the Senior Divisional Officer (S.D.O) for Wouri requesting that she stop construction works on a plot of land she bought legally.

According to her, she bought the land from a viable person, a civil servant working at the department of public works in the littoral region and has a legal land certificate to show as proof of sale. She explained that the stop notice by the S.D.O. supposes that there are five other claimants to the same plot of land, and, as a land under contention, she could not continue construction works on the piece of land.

AC unapprovingly noticed that no one contested her when she began making investments on the piece of land for the one-year period that she has been carrying out construction works on the land. Yet, an order with five other claimants suddenly came up when she has a completed building on the land. During investigations, AC found out that the plot of land in question does not belong to the vendor who claimed proprietorship but to his nephew, who is now claiming the return of his land and presenting the original documents of the land, spelling fraud in the land title of the complainant. AC has advised the complainant to pursue the vendor, a civil servant and seek redress

for the harm caused to her and claim damages, which she is yet to agree to work with AC to deposit a complaint in court.

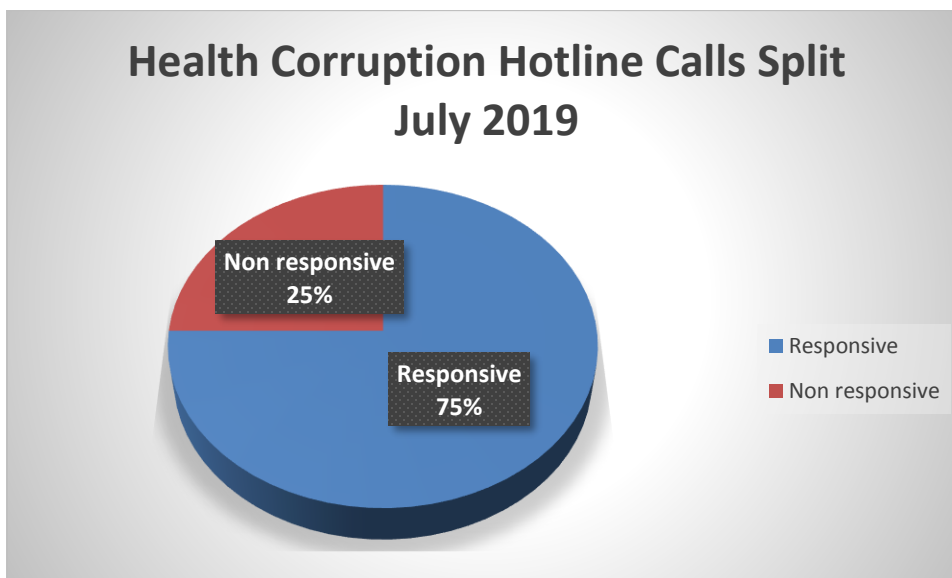

Legal follow-up

Case follow-up continued this month in the corruption case involving many counts with about three hundred victims deposited at the Yaoundé Court of First Instance in the month of August 2017. The case file was examined by the Procureur General of the Court of Appeal and forwarded to the president of the same court on August, 15, 2019 for the continuation of procedure which is to design a competent trial judge and court to handle the matter

Health Corruption Hotline

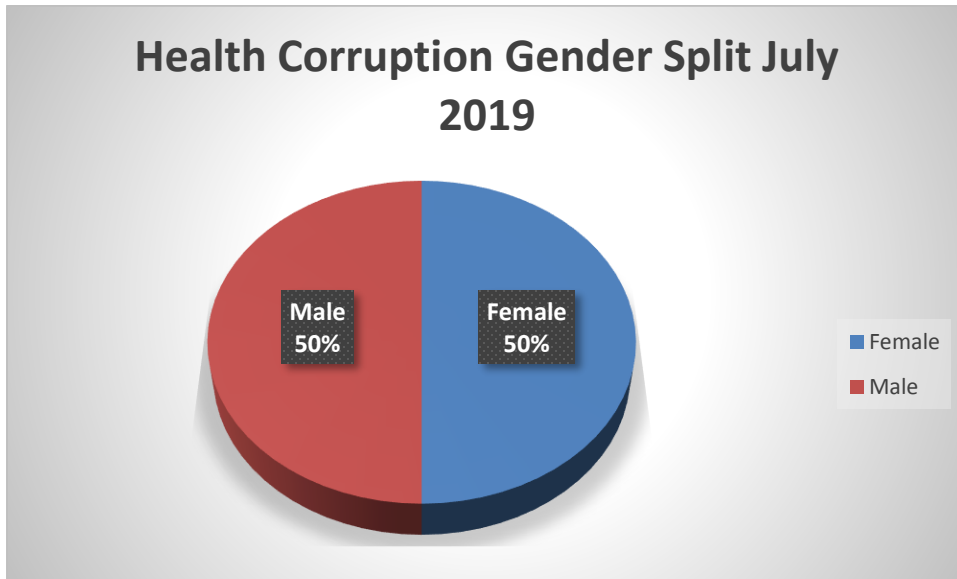

The Health Corruption hotline phone received a total of four (04) calls, registering no complaint. The lack of calls is explained by the lack of field work in the project.

The calls have been analyzed and represented on charts as seen below;

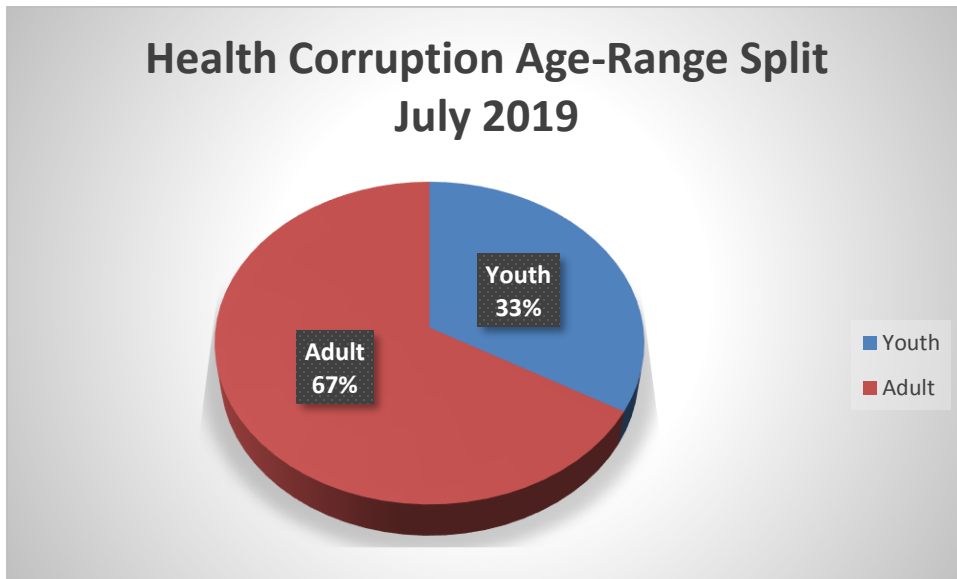

Responsive Health Corruption hotline calls were seen at 75% while non responsive calls were seen at 25%

Gender

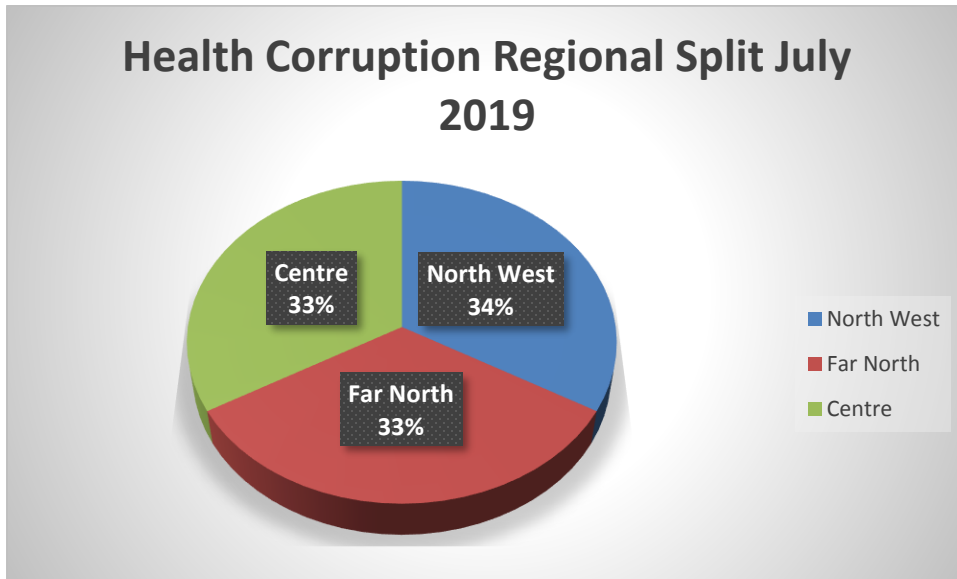

This month of July 2019, both the female and the male gender participated with 50% each of Health Corruption calls

Age Range of Callers

This month of July 2019, just two age groups participated in Health Corruption calls. The adult age group represented 67% of calls while the youth age group represented 33% of calls

Regional Representation

As can be seen from the chart above, just 3 regions participated in Health Corruption calls this month of July 2019. The north west represented 34%, while the Centre and north regions represented 33% each of calls received through the Health Corruption hotline phone.
